

Experiment 4 A

Aim : To design and build a vehical service Form in Zoho Creator using the Basic Fields available in the Form Builder.

Fields Used :

Basic Field	Form Field Name	Purpose	Sample Value
Name	Owner_Name	Captures the full name of the vehicle owner using First/Last name sub-fields	Ramesh Kannan
Email	Email_Address	Captures a validated email address for sending the service estimate and status updates	ramesh.kannan@example.com
Address	Pickup_Address	Captures the owner's address for a pickup/drop service, if requested	9, Cross Street, Salem, TN, 636001

Basic Field	Form Field Name	Purpose	Sample Value
Phone	Contact_Number	Captures a validated mobile number for the service center to call with updates	+91 93450 66778
Single Line	Vehicle_Registration_Number	Captures a short free-text entry for the vehicle's registration/number plate	TN 34 AB 5678
Multi Line	Issue_Description	Captures free-text description of the problem the vehicle is experiencing	Unusual grinding noise from the front brakes and reduced mileage over the last week.
Number	Odometer_Reading	Captures a numeric value with validation for the vehicle's current odometer reading in kilometers	45230
Date	Preferred_Service_Date	Captures the owner's preferred date to bring in the vehicle, using a date picker	30-Jul-2026
Time	Preferred_Dropoff_Time	Captures the owner's preferred time slot to drop off the vehicle at the service bay	9:00 AM
Drop Down	Vehicle_Type	Presents a single-select list of vehicle categories serviced by the center	Hatchback
Radio	Service_Type	Captures a single mandatory selection among mutually exclusive service categories	Breakdown Repair
Multi Select	Additional_Services_Requested	Allows selection of one or more add-on services along with the main repair	Car Wash, Interior Cleaning, Tyre Rotation
Checkbox	Authorize_Estimate_And_Repair	Captures the owner's authorization for the service center to prepare an estimate and proceed with the work	Checked (Agreed)

Form Layout (Section-wise)

Section A — Owner Details

☐ Owner Name (First Name, Last Name)

☐ Vehicle Registration Number (Single Line)

☐ Vehicle Type (Drop Down)

Section B — Contact Details

☐ Email Address (Email field)

☐ Contact Number (Phone field)

☐ Pickup Address (Address field)

Section C — Vehicle & Issue Details

☐ Odometer Reading (Number field)

☐ Service Type (Radio: Routine Service / Breakdown Repair / Accident Repair)

☐ Additional Services Requested (Multi Select)

☐ Issue Description (Multi Line)

Section D — Scheduling & Authorization

☐ Preferred Service Date (Date field)

☐ Preferred Drop-off Time (Time field)

☐ I authorize the service center to prepare an estimate and proceed (Checkbox)

6. Validation Rules to Configure

☐ Owner Name, Phone, Vehicle Registration Number, Vehicle Type, Service Type, and

Authorization Checkbox are mandatory fields.

☐ Email field: built-in email format validation enabled.

☐ Phone field: country code format enabled for Indian numbers.

☐ Number field (Odometer Reading): restrict to a positive value only.

☐ Date field: restrict Preferred Service Date to disallow past dates.

☐ Checkbox (Authorization): form cannot be submitted unless checked.

7. Workflow Summary

☐ Step 1: Owner opens the public form link shared via the service center's website or SMS.

☐ Step 2: Owner fills in personal, vehicle, issue, and scheduling details across the four sections.

☐ Step 3: On clicking Submit, Zoho Creator validates all mandatory fields and formats.

☐ Step 4: A new record is created in the Service_Request_Report.

☐ Step 5: An automated acknowledgement email (using the Email field value) is triggered to the owner.

☐ Step 6: The service center reviews the report, filters by Service Type and Preferred Service

Date, and assigns a technician and service bay ahead of the vehicle's arrival.

8. Expected Learning Outcomes

☐ Understand the purpose and correct use case for each Basic Field in Zoho Creator.

☐ Learn how to structure a service-request form into logical, customer-friendly sections.

☐ Practice configuring field-level validations (mandatory, format, and range checks).

☐ Understand how form field values feed into report views and service-scheduling workflows.
